

The Mims E7 2020 BROCHURE

STYLISH. AFFORDABLE. DYNAMIC. ELECTRIC.

MIMS MOTORS

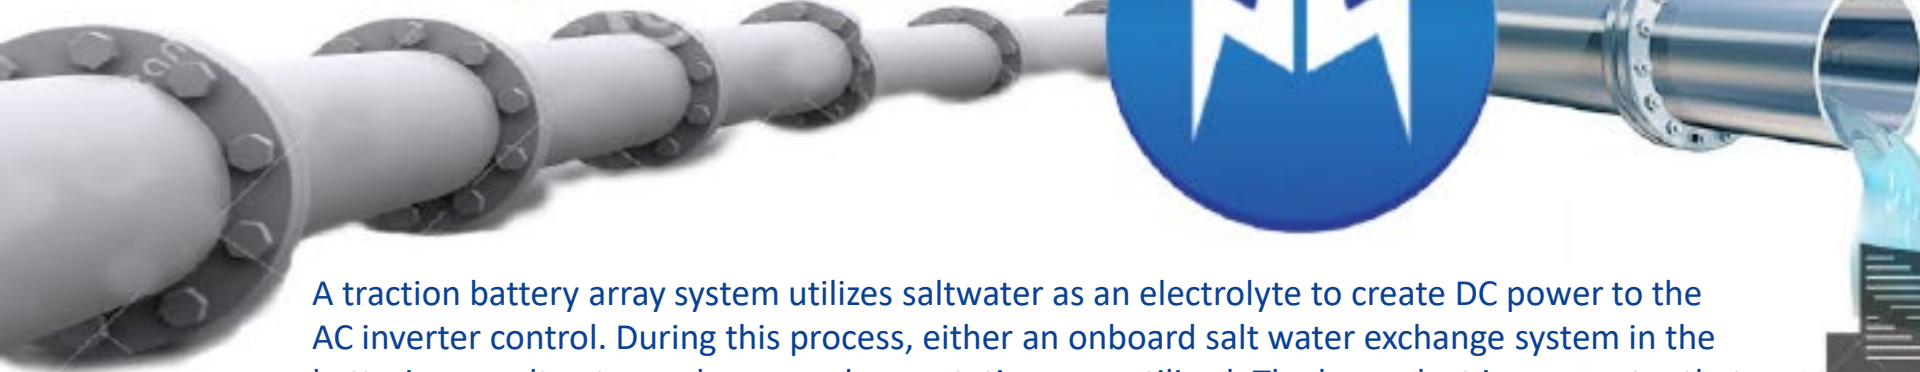

FAST FORWARD TO NOW

Mims Infinity Technology

The Mims Infinity Drive Module is a proprietary energy system that creates power to the onboard battery array. It supplies enough power to maintain constant and fluid energy under both strenuous and harsh driving conditions, depending on the needs of the vehicle.

Saltwater by Truck or Pipeline

A traction battery array system utilizes saltwater as an electrolyte to create DC power to the AC inverter control. During this process, either an onboard salt water exchange system in the batteries or saltwater exchange recharge stations are utilized. The byproduct is gray water that is put to use by local city's as filtered drinking water or city landscaping.

Clean Renewable Energy

Clean Potable Water

The E7's cutting edge power system allows for 1,000 miles per charge.

- Mims Motors E series vehicles come with a 1,000 mile range powered by the proprietary Infinity Drive Module battery system.
- On board recharge and electrolyte swap capacity
- At the 1,000 mile interval, onboard mandatory maintenance check is required.
- Safety check service interval: 6,000 miles
- Battery system requires service at 24,000 miles or 2 years. whichever comes first
- 10 Year power train 100,000 mile warranty
- 5 Year 50,000 mile bumper to bumper warranty
- Front, Rear and All wheel drive available

MIMS MOTORS

MIMS MOTORS

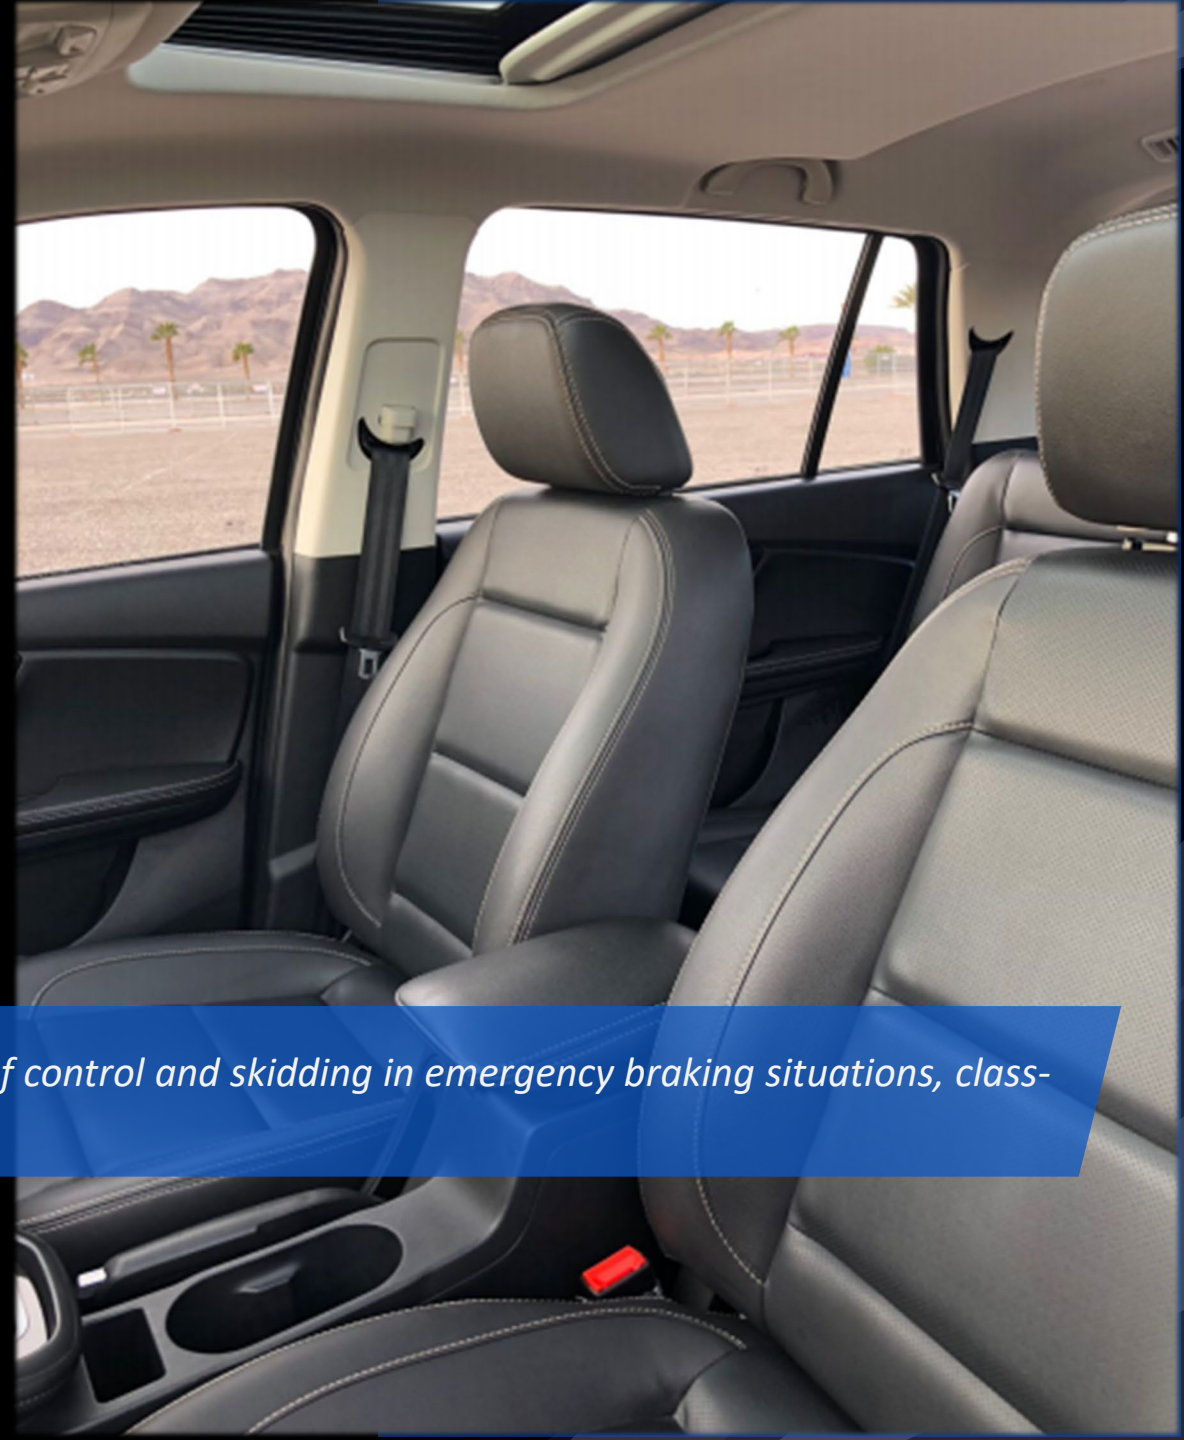

- Air cooled DC electric power drive motor with 372 HP and 460 ft pounds of torque
- Front, Rear and All wheel drive available
- Auxiliary generator
- On board AC unit
- 160 kWh blade source battery system
- Pandora's Box: 33 kWh continuous tri-power frictionless motor/generator/DCPC system
- DCPC electrolyte swap unit 33 kWh continuous flow/storage system

- Front and rear suspension Class SUV
- Standard EPS
- Wheel disc brakes
- Dual front airbags
- High Level Safety Systems
- ABS + EBD + CBC
- Dual Cryogenic Nitrogen filled front airbags
- Rear anti-depression chest harness seat belts

ABS + EBD + CBC helps to avoid the loss of direction, loss of control and skidding in emergency braking situations, class-leading passive safety.

MIMS MOTORS

The E7 has an interior feel that is second to none. With built-in cutting edge technology, leading styling and design features, color interior and leather seats, the E7 is as sleek and fresh as it is efficient vehicle.

MIMS MOTORS

On-Board Technology

The E7 features in-dash screen technology powered by Universe Networks.

- Display's 2D, 3D, S3D content without the need of goggles
- Depth Sensing 3D Camera system
- Touch Screen
- Bluetooth
- NFC
- Wi-Fi (802.11b/g/n)
- Touchless Control
- Assist
- Fingerprint recognition
- Water Resistant (30 Mins)
- Micro USB Fast Charging
- Voice Recognition & Assistance System
- World Device
